

# PRODUCT DATA SHEET

## Product Description & Application

Waxity Chassis Grease is premium quality sodium based automotive grease manufactured from superior quality base stocks and specially selected additives. Chassis grease is having moderately high drop points, resistance to oxidation, good thermal and structural stability. Chassis grease also provides protection against rust and corrosion. Chassis grease an ideal product for lubrication of chassis of all types of automotive vehicles, passenger and commercial, tractors and other heavy duty equipment. Used for lubricating chassis parts, such as universal joints, and other components needing lubrication and protection.

## CHASSIS GREASE

### Automotive Chassis Grease

### Features & Benefits

- Excellent water resistance.
- Lasting qualities in spring shackles and steering connections.
- Acts as protective layer on exposed parts.
- Clings to bearing surfaces.
- Good protection against rust and corrosion and resistance to water washout

### • Typical Characteristics

TEST	METHOD	RESULT
Appearance	-	Greenish Brown
Soap Type	-	Sodium
Unworked Penetration°C,	0.1 mm units	290-320
Titled Leakag, Max	-	5
Worked Penetration @25°C	ASTM D 217	290-320
Drop Point, °C	ASTM D 2265	95
Water, % wt., Max	-	0.1
Copper Stripe Corrosion,	ASTM D 4048	1B
